DYNAMIC AIR SHELTERS

Promotional

Promote your brand at shows and other public events in a structure that appeals to consumers of all ages. When it comes to building promotional shelters, Dynamic Air Shelters is in our element.

We will customize one-of-a-kind inflatable hospitality and meeting centres that reflect your company identity, in colour, in context and even in iconic form. Because of their air-beam design, Dynamic Air Shelters Lightweight Relocatable Shelters (LRS) can be large enough to contain an entire event or can be as small as an individual display.

The Main Event

When it comes to size, Dynamic Air Shelters can build a structure that meets your needs, be it a conference centre, a sports arena or a wedding hall, we can provide you with a structure that is easily deployed by a small team. Our structures are easy to take down and designed to ensure minimal size for storage and can be reassembled next time you want to use it.

Advantages

- Cost effectively provides highly recognisable brand identity.
- Built to your specifications and can include: Electrical, lighting, HVAC and air filtration systems.
- Manufactured to the highest standards and certified to meet the most stringent national fire codes.
- No central pillars.
- Highly portable and easily redeployed providing immediate, functional interior work space for product display, sales, meetings, media centres and administrative offices.
- Shelters to be inflated quickly; some in as little as ninety seconds.
- Environmentally friendly; can be set up on lawns or golf courses without leaving any visible scars.
- Immediate protection from weather including; heavy rains, snow, high winds and hot or freezing temperatures.

DYNAMIC AIR SHELTERS

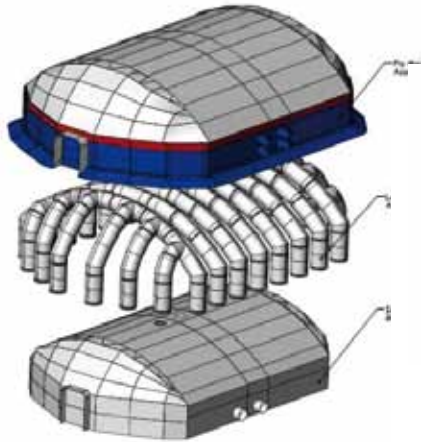

Designed For You

Imagine building a promotional buzz by holding your next meeting in a modern and attractive structure that mimics your company packaging. Dynamic Air Shelters can help you create that kind of positive brand recognition. Whether at a large rural event or at a trade show in the busy heart of a major city. We can give you that marketing edge.

Dynamic Air Shelters provides one-of-a-kind hospitality and meeting centres that reflect your company identity in colour and context or even in iconic form. When you plan to promote your message with a Dynamic Shelter, no matter what form you want to create, Dynamic Air Shelters can help because, however challenging your idea may be, we are in our element.

Excelling in the Field

Dynamic Air Shelters' approach to business is one of service with confidence. After fourteen years of research and development of our innovative LRS systems, we are in our element, providing shelters that are technologically advanced, reliable and above all, customer-oriented. No matter where your next promotional opportunity takes you and your sales team, you can rely on Dynamic Air Shelters LRS to represent your brand with professionalism and pizzazz.

Dynamic Air Shelters: Made to Measure

Dynamic Air Shelters can be made to measure, our specially trained engineers design structures with varying sizes from 400 - 40,000 sq feet. Bespoke designs can be made; company logos, relief mission statements, military camouflage. Your choice; interior layouts; partitions, doors, HVAC, lighting, ventilation, furniture
